

Format for Writing a Tribute to a WOW Gal Angel:

(Can flow differently when speaking from the heart, however this is the basic format for WOW)

Describe how you knew the person and how long you have known her.

Explain the traits of the person that touched you the most. Suggest how knowing this person changed the way you perceive the world.

List the things she has done in her life, such as raising children, starting a business or writing a novel and how each of these accomplishments affected others.

Tell a favorite story about the person. This is a good time to use humor. Give the audience your best memory with this person. Explain the details of the event and tell why this story stands out in your life.

Speak of the ways in which this person touched other people. Discuss a few little things this person gave to the people who know or knew her.
